New Individual In-Reach Program

Dear Skilled Nursing Facility Resident,

Health First Colorado (Colorado's Medicaid Program) wants to improve how we share information about options for community living. Our goal is to make sure Health First Colorado members who live in nursing facilities know all their options for moving out of the nursing facility if they want to.

To help with this, Individual In-Reach will begin on July 1st. This is an opportunity for you to learn more about your options for transitioning into the community.

Some facts about Individual In-Reach:

- Individual In-Reach is optional. You do **not** have to do anything if you don't want to.
- If you are interested in moving, you may be able to live in another place in the community, such as:
 - your own apartment or home
 - an Assisted Living Facility
 - an Independent Living Facility
 - other options may also be available
- We encourage you to share this information with people who support you.
 - If you have a guardian or conservator, that person must be involved in the process.
- Individual In-Reach can give you personalized information about benefits and services you may qualify for.
- Please remember, no service or transition is guaranteed.

In-Reach Counselors will start contacting members who live in nursing facilities in July 2025 to see if they are interested in learning more. If you would like to begin the process sooner, please complete the referral form on the back of this letter, or use the QR code below to complete the form online. An In-Reach Counselor will contact you within 10 business days.

For more information, please go to HealthFirstColorado.com/transition-services.

Sincerely,

In-Reach Team
